PREFACE

The M.C. Migel Memorial Library at the American Foundation for the Blind was established in 1926 to provide scholars, researchers, practitioners, and others with a centralized source of inkprint materials related to all aspects of blindness and visual impairment except the medical, and now contains over 35,000 titles. The library professional staff provides consultation, information, and referral. In addition, a substantial number of items in the library collection may be borrowed if unavailable for purchase or loan elsewhere.

This bibliography is a compilation of materials added to the collection during the year April, 1978 - April, 1979. To assist you in obtaining the materials cited, a list of the names and addresses of most of the journals has been included. (Where addresses are omitted, they are unknown.) Addresses of publishers can be found in Books in Print, available at public and university libraries.

My very special thanks are extended to Judith Kaplan, Mona Lewis, Linda Williams and especially to Margaret Gibson for their assistance and support in the preparation of this publication.

- E.M.S.
